

I like the one of the lake framed by the trees. It was taken on our way home from Eberlein's, where we had a delightful visit. I took some pictures that day of Mrs. Eberlein and Viola, that turned out very well. I mailed them some copies to-day.

We hope to be able to spend at least part of next summer at the lake and renew the friendships begun this year. We all send our sincerest greetings to you and to Miss Windsor.

Yours cordially,
Josephine M. Dunkell
